Languages: HTML, CSS, Bootstrap JavaScript (React Js , Express Js, Node Js, Swiper Js),
Developer Tools: Google maps API, Git(Hub) || Databases: MySQL Workbench, MongoDB,

PROJECTS

MediBridge: A HealthCare Website.

Ventures: A Traveling and Booking Website.

Tickfare: An online Ticketing Platform.

Heavy Locomotive: A Truck and Fuel Tanker Rental Fleet Website.

The Archive: A Library Management System.

PROFESSIONAL EXPERIENCE

NIIT Limited , Awolowo Road , Ikeja , Lagos , Nigeria.

January 2023 - June 2023

Web Development Intern

Embarked on a six month internship training with the aim of familiarizing myself with the Tech Industry and gaining the skills necessary to make a career in this industry..

During this six month period I built a car dealership site , a site for a travel agency and the first of many iterations of my portfolio site among other projects.

Tunken Elevators

September 2023 - October 2023

Front-End Developer , Lagos , Nigeria.

I developed a fully functional , fully responsive Website that illustrates the different services offered by this business.

I also worked side by side with the client answering questions and recommending different services that helped to ensure easier facilitation of the hosting of the Website.
